# REVIEWS & LABEL

"... Seriously powerful riffage as metallers Trigger are alive and here to stay."

- Mandy Craig, Metal Mayhem

"These are not the fumbblings of an adolescent band scratching to enter the market prematurely. This is a short catalogue of carefully honed melodic fury, blended with masterful composition, precision and aggression."

- Damien Smith, Megaton Music.

"There is also a surprising amount of variety in the tracks; all of which offer up a full and brawny serving of Trigger's style: a strong and sturdy force of sound."

- Tristan Peterson, Metal Obsession

"Topped by frontman Tim Leopold's snarling yet durable range, Trigger shoot bullets that not even armour of even the sturdiest steel could surely deflect. Deadly essential metal from down under!" 10/10

- Dave Attrill

"At its softest and heaviest moments, it never loses any of its melodic touch and that's what I really love about this album!"

- Denis Sudzuka, The Hard Rock Show

"Another fantastic heavy band from Melbourne who've released an album full of great playing, strong music and energy that's infectious."

- Jimmy VanZeno, The Hard Rock Show
